ACTIVATE

the International Two-Year Second level Master in "Aesthetic (Cosmetic) Medicine and Therapeutics" (class of Athens, in English language, 4th Edition) with the issue of a joint degree

GOALS AND OBJECTIVES

Aesthetic (cosmetic) medicine has of late become an important reality in medicine and in society at large. The culture of medicine of wellness, so pervasive in industrialized Western society, risks presenting consumers with inadequate or superficial information that often leads to "do it yourself" remedies that may be ineffective or even harmful.

In this context, advanced university formation provided by eminent figures in the sector who work on an international or national level, would safeguards consumers and offer the high level of quality that should be the ambition of a public university.

A unique characteristic of the Master, developed to meet the needs of working physicians, is its e-learning format for the theoretical part of the program. The face-to-face and practical parts of the formation will be conducted in a series of intensive internships coordinated in collaboration with Venus Medicine in Athens.

PROFESSIONAL PROFILE

The Master provides high level formation of international and namely of European level for professionals who will work in their own studios, multi specialist centres, wellness centres, gyms, spas or hotel complexes with specialized sports and health and beauty facilities, as well as in companies that develop and manufacture products for the sector.

TEACHERS OF THE MASTER

The teachers of Master are qualified professionals in the area and selected on a comparative basis after completion of a public call.

STRUCTURE OF THE MASTER

The Master is articulated into 21 units, each of which is in turn formed of one or more modules, for a total of 28 modules. A module includes a series of lessons, most of which employ e-learning, and a library in which learners can find carefully selected reference material that would otherwise be difficult to obtain. Each module is followed by an on-line test.

In addition to modules, there will be *case studies* that focus on some practical aspects of the management and practice of cosmetic medicine.

After the first and second year of the Master and before presentation and defence of the thesis, the student must pass a face-to-face exam on the fundamental content of the program of studies. At the end of the Master, the student must present and discuss her or his Master's thesis, as one of the requirements to earn the degree.

At the end of the program, participants will receive the two-year university level two Master degree.

THE FACE-TO-FACE ACTIVITIES VENUE

Frontal teaching activities and internship will be realized in Athens at Venus Medicine 294, Agiou Dimitriou str, AGIOS DIMITRIOS, P.C 17341, Greece

INTERNSHIP (*obligatory*)

An internship will be organized each year.

These activities include an intensive 3 day full immersion course of aesthetic medicine training on cadavers organized in collaboration with the Department of Surgical Anatomy of the National Kapodistrian University of Athens.

ADMISSION REQUIREMENTS

The Master is open to applicants who are employed, unemployed, or have never been employed, and who have a degree in Medicine and Surgery or Dentistry, earned in at least five year program, a license for medical practice and membership in the appropriate professional registers or, for foreigners, equivalent organization.

All participants in the Master must have the computer skills and familiarity with internet use needed to follow the interactive e-learning lessons. They must have a multi-media personal computer with broadband service, and possess sufficient knowledge of English to follow e-learning courses which are delivered in English.

Enrolment in the Master is not possible for those who in this academic year are already enrolled in an undergraduate, master, specialization, or doctoral degree program, or another course involving a year-long commitment (Italian law 270/04, art. 5, c. 2).
