Rectoral decree repertoire n.177 prot.n.41758 of 2 July 2019**

### ACTIVATE

**the International Two-Year Second level Master in "Aesthetic  
Medicine and Therapeutics" (class of Rome, in English language,  
4<sup>th</sup> Edition) with the issue of a joint degree**

#### GOALS AND OBJECTIVES

Aesthetic (cosmetic) medicine has of late become an important reality in medicine and in society at large. The culture of medicine of wellness, so pervasive in industrialized Western society, risks presenting consumers with inadequate or superficial information that often leads to "do it yourself" remedies that may be ineffective or even harmful.

In this context, advanced university formation provided by pre-eminent figures in the sector who work on an international or national level, would afford safeguards for consumers and offer the high level of quality that should be the ambition of a public university.

A unique characteristic of the Master, developed to meet the needs of working physicians, is its e-learning format for the theoretical part of the program. The face-to-face and practical parts of the formation will be conducted in a series of intensive internships coordinated in collaboration with the International Radio Medicine Centre in Rome.

#### PROFESSIONAL PROFILE

The Master provides high level formation of international and namely of European level for professionals who will work in their own studios, multi specialist centres, wellness centres,

gyms, spas or hotel complexes with specialized sports and health and beauty facilities, as well as in companies that develop and manufacture products for the sector.

28,29,30,31 MAY 2020

Besides to the face-to-face teaching activities indicated above in the months of April, July and October, interactive lessons will be organized by videoconference. These videoconference activities will cover interdisciplinary topics of aesthetic medicine.

**Final exam 1st year** 20/21 NOVEMBER 2020

The calendar of lessons and other educational activities for the academic year 2020-2021 will be available at the beginning of that academic year.

### **TEACHERS OF THE MASTER**

The teachers of Master are selected on a comparative basis after completion of a public call.

### **STRUCTURE OF THE MASTER**

The Master is articulated into 21 units, each of which is in turn formed of one or more modules, for a total of 28 modules. A module includes a series of lessons, most of which employ e-learning, and a library in which learners can find carefully selected reference material that would otherwise be difficult to obtain. Each module is followed by an on-line test; once this test has been passed, the student may access the following modules.

In addition to modules, there will be common discussions and *case studies* that focus on some practical aspects of the management and practice of cosmetic medicine. These activities will include 4 meetings delivered via teleconference.

After the first and second year of the Master and before presentation and defence of the thesis, the student must pass a face-to-face exam on the fundamental content of the program of studies. At the end of the Master, the student must present and discuss her or his Master's thesis, as one of the requirements to earn the degree.

At the end of the program, participants will receive the two-year university level two Master degree.

### **THE MASTER PROGRAM VENUE**

**Frontal teaching activities and internship will be realized in Rome at the Foundation Centro Internazionale Radio Medico (C.I.R.M).**

### **INTERNSHIP**(obligatory)

A six week internship will be organized each year.

Those enrolled in the 2nd year will earn 3 credits to be deducted from the total hours of the stage for the 2nd year by attending in Athens an intensive course of aesthetic medicine training on cadavers organized in collaboration with The Hellenic Center for Neurosurgical Research University of Athens, Evangelismos Hospital. This is a full immersion course of 3 days and the participation fee is included in the Master's registration fee.

### **ADMISSION REQUIREMENTS**

The Master is open to applicants who are employed, unemployed, or have never been employed, and who have a degree in Medicine and Surgery or Dentistry, earned in at least five year program, a license for medical practice and membership in the appropriate professional registers or, for foreigners, equivalent organization.

All participants in the Master must have the computer skills and familiarity with internet use needed to follow the interactive e-learning lessons. They must have a multi-media personal computer with broadband service, and possess sufficient knowledge of English to follow e-learning courses which are delivered in English.

Candidates graduated outside Italy and having obtained a qualification comparable in level, nature and content and academic rights to the Italian title required for access to the Course may apply for enrollment. For recognition of the graduation title, the University of Camerino will refer to the current legislation regulating the subject, but registration should be evaluated by the Master's Scientific Committee for assessing the compliance of it.

In particular

- a) The student's affairs office will check administrative aspects of the studies curriculum;
- b) The Scientific Council of the Master will assess the compliance of the curriculum of studies with the admission requirements.

Candidates graduated abroad should also provide

Original degree diploma translated and legalized;

- a) Declaration of value;
- b) Diploma supplement certificate or if not available certificate of exams passed, translated and legalized.

**Enrolment in the Master is not possible** for those who in this academic year are already enrolled in an undergraduate, master, specialization, or doctoral degree program, or another course involving a year-long commitment (Legge 270/04, art. 5, c. 2).
