Art. 7 **Work of the Selection Committee**

The selection procedure shall take place in the following manner:

1) Preliminary assessment of candidates with reasoned analytical judgment (individual and collegial) on the qualifications, curriculum and scientific production, including the doctoral thesis, according to the criteria set out in Art. 24 of Law No. 240/2010 and in Ministerial Decree No. 243 of 25 May 2011;

2) If the number of candidates more than six, the Committee shall carry out a preliminary assessment of the candidates, aimed at creating a “short list” of the comparatively more deserving ones, admitted to the public discussion of qualifications and scientific production, the numerical consistency of which may not be less than six or more than 20% of the candidates. The Committee shall evaluate, using reasoned analytical judgment (individual and collegial), the qualifications, the curricula and the scientific production of the candidates, including the doctoral thesis, according to the criteria provided for by Art. 24 of Law No. 240/2010 and by Ministerial Decree No. 243 of 25 May 2011.

The Committee is required to apply the principles expressed in the European Charter for Researchers on the qualitative and quantitative evaluation of merit. This evaluation shall put the emphasis on the exceptional results obtained in a diversified personal path and not only on the number of publications, and appropriately considers teaching and supervision activities, teamwork, knowledge transfer, research management, innovation and public awareness activities. Career breaks, aimed at conducting other experiences in public or private entities, or changes in the chronological order of the curriculum shall be considered as a contribution to the professional development of researchers in a multidimensional path. Any experience of mobility or change of discipline or field shall be considered valuable contributions.

With regard to scientific production, the Committee shall express, for each candidate, applying collegial judgment, the degree of creativity and autonomy (as required by the Human Resources Strategy for Researchers).

Once the short list has been defined, or, if a short list is not necessary, after examining the qualifications, the curricula and the scientific production of the candidates, the Committee shall establish the date for the public discussion of the same qualifications and scientific production for the purposes of the final evaluation of admitted candidates, which will be communicated to candidates with at least 20 days’ notice.

To test their knowledge of the English language, candidates must publicly carry out, in front of the Selection Committee, a short presentation, in English language, on a topic inherent to their qualifications and their scientific production and freely chosen.

The schedule for the oral presentation will be communicated to the interested parties, with a

short notice, given the very short timeframe for signing the contract with the successful candidate.

To make the presentation, candidates must have a valid identification document.

The non-presentation by the candidate for the discussion shall be considered an explicit and definitive manifestation of the will to renounce the selection procedure.

The Committee shall proceed with the attribution of scores, reserving 20% of the overall score for the presentation, solely in relation to the assessment of an adequate knowledge of the English language, and 80% for the qualifications and research products presented by the candidates, and shall conclude its work before 13 December 2021, if in any way possible.

The proceedings of the Committee consist of the minutes of the individual meetings, including the individual and collective judgements expressed on each candidate, as well as the summary report of the work carried out.

After completing its work, the Selection Committee shall deliver the competition documents to the Procedure Manager in a closed and sealed envelope, with the signatures of all the Committee members on the closing flaps.

The Rector shall ascertain the formal regularity of the documents, issuing a Rector's Decree, which shall be published on the University website and in the Official Gazette of the Italian Republic.

In the event of any irregularities, the Rector shall send the proceedings back to the Committee, together with a substantiated decision, establishing a deadline to provide for any necessary changes.

The work of the Committee must be completed within 4 months from the publication date of the Rector's Decree concerning the appointment of the Committee. The Rector may extend the deadline for the conclusion of the procedure, establishing a new congruous term, or may start, by means of a substantiated decision, the procedures for the replacement of the Committee members to which the causes of the delay are attributable.

Art. 8 Call

The Board of the School that requested the Selection Procedure, by means of a substantiated resolution and with a favourable vote of the absolute majority of Associate and Full Professors, shall draft a proposal for the Call, taking into account the evaluation of the Committee and the teaching and research needs of the School.
