CURRICULUM VITE CORRADINI FLAVIO

Flavio Corradini is Full Professor of Computer Science at the
University of Camerino. He is Professor of "Fondamenti dell'Informatica" and
"Complex System Design" at the University of Camerino.
Since November 2011 to October 2016, Flavio Corradini has been Rector of
University of
Camerino. He has been Prorector of International Research and the Transfer of
Knowledge, Skills and
Technology (2009-2011). He has been President of the spin-off UniCam "e-
Lios (e-Linking on line
systems)". His main research activities are in the area of specification,
analysis and verification of
concurrent, distributed and real-time systems, in the area of execution environments
of mobile and
distributed applications and in the area of Business Processes. He has published
more than 100 papers in
the main journals and conference of his area of interest like Journal of ACM, Journal
of Computer and
System Science, Information and Computation, Theoretical Computer Science,
Science of Computer
Programming, Communications of ACM. He was involved (acting, in some cases,
also as coordinator) in
several national and international projects. He acts as an expert for innovation and
technology transfer for
the Italian Ministery "Ministero dello Sviluppo Economico" for which he has
evaluated several projects.
