### *Bio*

I worked like a researcher (R1 and R2) at the Faculty of Veterinary Medicine, Sao Paulo State University, Brazil, where I develop my career on forensic veterinary medicine, public health and veterinary pathology. While completing my PhD I had the opportunity to make a co-tutela and I spend one year at the Center of Investigation of Tropical Diseases, Faculty of Pharmacy, University of Salamanca, Spain, where I work (R1) on the laboratory with molecular biology, lecturers, and develop research projects in such fields as: parasitology, preventive veterinary medicine, forensic veterinary and epidemiology. Before I spent one year at the Laboratory of Forensic Genetics, Faculty of Medicine, Sao Paulo University, Brazil, to developed sequencing DNA and molecular techniques on the approach for one health and forensic sciences. The focus of my carrer is about veterinary on forensic field, studying criminal, civil and extrajudicial cases. Currently I develop technical papers for vet practices about law, animal welfare and veterinary forensics, making lectures and trainings.
