

Seminar for doctoral candidates

Author Workshop

How to get Published

Dr Liliana Birla

PhD in Chemistry

Associate Publisher, Energy Materials and Ceramics

Amsterdam

The goal of this presentation is to provide background information on academic publishing. It outlines the various important steps that, as an Author, you need to follow in preparing your manuscript for a successful publication. It includes advice about how to properly structure your article. From the title and keywords, right through to the conclusion and references, all the essential criteria are covered to make sure it can be a success. The importance of using of proper scientific language in a manuscript is covered also. All the main ways to present your work, including the correct use of tenses and grammar, as well as why proper language is vital.

June 6 from 11 am

Sala degli Stemma

Palazzo Ducale
